

BUILD QUALITY SOFTWARE IN THE SAME TIME ZONE

What if your teams could collaborate in real time,
in the same time zone to meet your commitments,
truly leverage Agile, and still keep costs affordable ?

What is **Nearshore** and why should my organization use it?
 Nearshore services means outsourcing teams to a nearby country.

Key Benefits:

- Real-time **collaboration** in the **same time zone** means less communication gaps and delays
- Highly **skilled talent** yet **affordable**
- Cultural similarities mean consultants value open idea exchanges
- Proximity to US means more face-to-face work to accelerate delivery
- Convenient, Effective

Why MAS Global?

- **Full range of Agile & software development expertise**
- We build high performing Agile teams to deliver best in class software
- **Scrum Masters, Tech Leads, Developers, QA Automation Engineers, DevOps Engineers**
- Our **hybrid nearshore & onshore** approach uses **agile-ready consultants in the U.S. and Colombia, Latin America**
- Rigorous selection process: **Best talent from the start, high retention, less "churn"**
- Our clients find it very easy to work with our consultants - strong technical skills, fluent in English, **same time zone**
- **High-value consulting firm**, not a high-volume staffing agency
- **US & Latin America talent provider**
- **Reduce execution risk** to optimize total cost of delivery and avoid schedule delays
